

Dear Worshipful Company of Pattenmakers,

I'm writing this letter to thank you for sponsoring and supporting me throughout my school years.

Throughout my time in year 10 I have progressed further into my GCSE's which I am currently working for. My current goals of year 10 is to keep working for high grades and to reach high goals for my future career.

During this year I have attended trips such as the spanish trip to Granada and the geography trip to Iceland. I have found these trips extremely useful for my education and enjoyable to spend time with my friends in a different country with new experiences. I look forward to the upcoming trips in year 11 such as my art trip to Venice. These trips have allowed to me open up new paths for my future and has helped me to see my career paths more openly rather than restricted in the UK.

Towards the end of year 10 I will be thinking about my choices for A-levels. My current plan is to take maths, art, DT and a science which I am still deciding on. I will still be sticking to my creative career path with art and DT.

It has been a great opportunity to be able to update you on how my years have been going. I look forward to writing to you again. I thank you for sponsoring me and allowing me to achieve my goals in City of London School for Girls.

Yours Sincerely,
Rozerin Halis
